Dear Jack,

**RE: Cook Connect Courses Monday AM&PM St George's Church Hall
Gainsborough.**

I wish to report that the feedback on the courses you have set up for us is very positive. Ken is an excellent tutor and has dealt with some very anxious and afraid participants. The groups contain people with severe mental health problems and others with learning disabilities. Some are labelled as bi-polar and schizophrenic and they have integrated extremely well into the group and are getting a lot out of it. Ken's handling of skills learning is sensitive, individually directed and he gives enormous advice and support to all.

It is interesting to note that some of the participants are now very keen to cook at home and talk about it in their other groups and rave about how good it is.

I would like to thank your organisation, in particular yourself and Ken for providing such excellent opportunities for people who are often missed out in our society.

I would also like to thank Matthew Broughton at West Lindsey District Council for telling us about you and arranging the funding which made this first group of classes available to us. I hope we can have repeat sessions in the future as with different participants and spread the excitement to others.

Yours Faithfully,

Nigel Webster.
